Hi Lene, just got your VM, running to another meeting but I meant 8:30 your time! I'll give you a call then. I'm attaching the correspondence I have about this letter with Bob W and Rich when we were going through the editing process for background. I believe this is why we thought DOH was ok with the letter as it was. Obviously we can do better about tracking everyone's inputs and getting a final product we're all happy with, so I am happy to discuss getting a better process in place.

Lene, If you could call between 8:30 and 9 that would be ideal, I have some other meetings this morning so I will be away from my desk at other times. We can also talk after the Red Hill calls if you're not available at 8:30 .

Thanks!

Subject: Fw: Sect 6/7 comment letter

Lyndsey,

Here is Bob W's missing comment. He had slightly reworded it from the original submittal to Bob P, in order to make it easier for inclusion. See general comments attached in the first heading. Before adding to the letter, I wanted to discuss the process of EPA/DOH joint reviews. After discussing the issue with DOH staff, I was surprised to hear during last week's EPA/DOH meeting that none of the comments were cut. However, the general comment was not in the letter and DOH staff had indicated that they were told that the general comment was going to be cut, but was not given a reason.

I'll call you when I get in the office. I must be missing something here, and want to understand the process that is currently going on for joint reviews. If there is problem on our side, I'd like to fix it before the next 6/7 submission.

thanks,

lene
